## Champion Elks Elect Officers

The Champion B. P. O. Elks No. 182 held their election of officers for 1929 in Campbell's hall on Wednesday evening, Jan. 23rd, and the following officers were elected:

Past Exalted Ruler..... J. M. Moffatt,  
Exalted Ruler..... J. D. Henderson,  
Leading Knight..... A. W. Jopling,  
Loyal Knight..... J. L. Miller,  
Lecturing Knight..... H. E. Gill,  
Treasurer..... G. F. Smith,  
Secretary..... H. G. Hammell,  
Chaplain..... W. Harris,  
Tyler..... H. O. Smith,  
Inside Guard..... J. C. Mallock,  
Trustees—Oscar Bietto, Dan McRae and Tom Sletto.

Installation of officers will take place in the new community hall in February, which will be followed by a banquet and dance to members and their ladies only.

Much praise is due to the Past Exalted Ruler, J. M. Moffatt for the efforts he has put forth in making the Champion lodge one of the leading lodges in the province.

## Car Turns Over On Stavely Trip

A large number of Champion Elks visited Stavely on Tuesday night despite the very cold weather. A very pleasant time was spent, the only untoward incident being the breaking of a steering knuckle on J. M. Moffatt's car, driven by W. Harris, who was accompanied by G. M. Campbell and Clark Rhodes. The car overturned in the ditch and Mr. Rhodes was considerably shaken up, the other two escaping injury. The car was slightly damaged.

## Celebrate 40th Wedding Anniversaries

A very enjoyable time was spent on Wednesday afternoon and evening at the home of Mrs. G. A. Manhard when a large number of friends gathered there in honor of Mr. and Mrs. Manhard's fortieth wedding anniversary. The main feature was a presentation to Mrs. Manhard of a dozen silver salad forks. Dainty refreshments were served by the hostess assisted by Mrs. Neil McLeod. The program consisted of contests in which Mesdames Campbell, Stephenson, Summers, Orr, Latiff, McIntyre and Blachly were prize winners.

## School Opening Friday, Feb. 1

The formal opening of the new school will take place on Friday evening, February 1st. Dr. Carpenter, principal of the Technical School at Calgary, will be the principal speaker, and invitations have been sent to Hon. Fernon Baker and Hon. O. L. McPherson. The event is being held under the auspices of the P. T. A. and the school board and should draw an unusually large audience as the occasion is a memorable one. Further particulars will be made public at an early date.

We wish to thank the Elks' Lodge, the O. E. S. and the Women's Institute for flowers sent during our recent illness. Mr. and Mrs. J. A. Long.

## Ladies' Aid Had Prosperous Year

The Ladies' Aid held their regular meeting and election of officers last Thursday at the home of Mrs. G. F. Smith. Officers for the year were elected as follows:

President, Mrs. G. F. Smith.  
Vice President, Mrs. W. Ulrich.  
Treasurer, Mrs. McIntyre.  
Secretary, Mrs. Woodhull.

The next meeting will be held at the parsonage Feb. 28th and the last Thursday of each month. The reports of the various committees were evidence of healthy conditions. Mrs. Smith served a delicious lunch at the close of a very pleasant afternoon. Twenty were present.

## FINANCIAL STATEMENT, 1928

CASH RECEIPTS  
Bank Balance, Jan. 1, 1928..... \$ 55.90  
Cash on hand..... 2.50  
Collections and Membership Fees..... 57.15  
Bouquet and Carnival proceeds..... 58.75  
Lester Tea and Party Sale..... 57.10

Bazaar..... 317.70  
Sundrie Sales..... 11.85  
TOTAL..... \$672.90

EXPENDITURE  
Church Board..... \$300.00  
Material for Bazaar..... 42.28  
Flowers..... 55.90  
Gifts..... 5.00  
Window Shades and Pictures..... 12.00  
Missionary Society..... 3.25  
Sundrie Expenses..... 10.08  
TOTAL..... \$517.67

Balance in Bank, Jan. 1st, 1929 \$18.09  
Cash on hand..... 37.05  
TOTAL..... \$55.14

The officers and members of the Champion Ladies' Aid wish to thank all those who so generously contributed to the success of this organization in the past year, and solicits their hearty co-operation in the future.

## Card of Thanks

Dr. A. E. Talbot writes from Calgary as follows: "I wish you would place a card of thanks in your paper to the Champion Chapter Order of Eastern Star and also to my friends in Champion and district extending to them my sincere thanks for their floral tributes and their kind expressions of sympathy in my sad bereavement. I have been in hospital with blood poisoning, and now at home, it is my first chance of writing and thanking them.—Sincerely yours, A. E. Talbot."

"Under the Tonto Rim," a Zane Grey thriller, at the theatre this week.

Owing to the school opening occurring on the same date the guest tea at Mrs. Ryan's on Friday, February 1st, has been cancelled.

W. S. Ryan, of the Canadian Bank of Commerce, who returned last week from a visit to Toronto, where a convention of the bank managers was held, found the weather cold and stormy, and while in Hamilton, Ont., experienced one of the worst blizzards he had encountered for some years.

A streak of real winter has visited us during the week and on the whole was welcome. The mild weather experienced during November, December and the early part of January has shortened the winter to a very appreciable extent, while it is also anticipated the sickness so rife during the warm period will be checked by the change in the weather to more seasonal severity. The change appears to cover almost the whole continent.

THURSDAY, Jan. 24, 1929

**NOTES AND COMMENT.**

The Saskatchewan Royal Grain Commission is to take evidence in Alberta. Doubtless there is reason to believe that some good will be accomplished by this course. The layman, reading the evidence submitted to this body and considering the conflicting nature of the different statements made, has difficulty in imagining how any reasonable conclusions can be reached. For instance, while the Saskatchewan commission is receiving reports of evidence showing the evils of mixing, the U. F. A. annual convention recognizes mixing as a necessary evil, to say the least. It is to be hoped that out of the mass of contradictions the commission will reach conclusions which will be possible that will result in the present dissatisfaction with grain grading and mixing will result. Something is needed to clear up the situation.

One of the hardest things the local paper has to contend with is the lack of co-operation on the part of individuals who could contribute to the news items available. The ordinary local paper cannot afford a reporter for the purpose of gathering news. Consequently in a busy week the news items suffer. If individuals would make it a practice to forward news items to the paper, when possible without too much effort, increased interest from every angle would result. Try it.

Business in winter goods which has suffered from the extremely mild weather should revive under present climatic conditions, although many who have managed without buying up to the present will endeavor to finish the winter with what they have.

A discussion of the credit situation in Canada, and in the United States and Great Britain where Canadian products are sold in large volume, appeared in the September issue of the Monthly Commerce Letter, with particular reference to the exceptional demands to be made upon our banks during the crop-moving season. The actual developments were much along the lines anticipated. The banks mobilized their resources in time to furnish the record volume of credit required to finance the marketing of the largest crop of wheat ever grown in the prairie provinces without diminishing the supply of funds to other commercial channels in this country. A comparison of certain items in the Government Bank Statement for 31st July, when the new wheat year opened, and for 31st October, the date of the most recent report, supports the foregoing. In the interval commercial loans in Canada increased by about \$20,000,000, mainly in advances to grain dealers for the purpose of buying wheat from the farmers and for financing the shipment of it either for export or for storage. Commercial loans outside Canada were reduced by more than \$20,000,000, this amount being made available for use in Canada if required. Call loans show but little change—Canadian Bank of Commerce Monthly Letter.

**NEWS NOTES**

Copies of a pamphlet entitled "Rural Education in Alberta" have recently sent out from the office of Hon. Percen Baker, Minister of Education, to each rural school board and teacher in the province and to the heads of other rural organizations interested in educational matters. This contains an outline of the changes in the school system to be introduced to the Legislature at the coming session. Additional copies of this publication may be secured at any time from the Department of Education.

The Tree Planting Division of the Forest Service, Department Interior, reports that there are now about 55,000 flourishing plantations scattered over the Canadian prairies where in former times one could travel for miles without seeing a tree. Besides affording shelter for homesteads and crops and preventing soil-drifting, these plantations have made it possible to establish orchards, vegetable gardens, and plantings of bush fruits such as raspberries and currants, all of which were practically unknown on the prairies a few years ago.

The steady growth of the Alberta Government Telephone System is indicated by the announcement in the monthly letter of the department that for the first time in the history of the system over 60,000 telephone stations are in operation. The exact number shown at the end of the year is 60,222 representing a gain of 3,171 during 1928. A large number of telephones have been installed recently around the following points on the new Willingdon-Edmonton line: Elk Island, St. Michael, Andrew, Griesbach, Willingdon, Starr, Josephburg, Wostock and Beaver Hill.

In the Provincial Library under the direction of Hon. George Hoodley, there is a branch of Archives of the Province in which a large amount of source material of Alberta history has already been gathered. This branch is

anxious to secure any manuscripts or journals containing the memories of early settlers which will serve as a historical record of the beginnings of community life, or any information respecting the existence of the same also any existing early photographs of important persons and events. Communications dealing with the above may be addressed to Mr. J. A. Jeffery, Provincial Librarian and Archivist, Edmonton.

The annual convention of the U. F. A. and U. F. W. A. of Alberta held in Edmonton during the past week has been one of the most successful events in the history of the organizations. H. W. Wood, the veteran president of the U. F. A., was unanimously re-elected to this office for his fourteenth successive term. Mrs. R. D. Gunn who has retired from the leadership of the U. F. W. A. after five years' service in this position will be succeeded by Mrs. A. H. Warr of Waskatenu.

The gradual improvement of the 'flu situation has permitted everything to be in a more normal fashion than when this scourge was at its height. Very few families or individuals escaped altogether.

# Beginning the New Year 1929

We wish to express appreciation to those who have taken care of subscription obligations.

There are still a very large number in arrears, many of whom simply forget to call at the office.

***The amount involved totals hundreds of dollars, and payment would permit increased service to the public.***

A newspaper sells practically labor and failure to receive payments promptly creates a serious problem---real serious, too.

## To Advertisers and Contributors

Please get your copy into the office as long before the day of publication as possible. When nearly everything is left until the last day the result is frequently unsatisfactory to all concerned. Rules do not work entirely satisfactorily, but rules will have to be made and adhered to unless those concerned will make an effort to avoid late copy.

Thanking you in anticipation,

***The Chronicle***

Delicious - heat in oven, serve with hot milk**  
Made by The Canadian Shredded Wheat Company, Ltd.

## Western Canada in the Spotlight

The attention of people in all parts of Canada, and, in fact, of the world, will be directed to the prairie provinces of this Dominion during the next few months in a way and to an extent probably unprecedented in the history of any country, by reason of the applications to the Dominion Parliament for charters to build many hundreds of miles of railway in the northern portions of Manitoba, Saskatchewan and Alberta.

Both the Canadian Pacific and the Canadian National Railways are asking Parliament for power to enormously extend their lines into the north country, and both announce their eagerness to proceed with the work of construction with the least possible delay. There is the keenest kind of rivalry between these two giant systems for rights into certain sections of this territory, with the result that a battle royal will take place at Ottawa when Parliament assembles.

One thing emerges quite clearly from the situation that has developed with almost startling suddenness, and that is, that, despite all former statements and predictions to the contrary, the railway managements of Canada are now convinced of the enormous wealth of natural resources in the more northerly portions of Canada and of the success of the Hudson Bay Railway and Hudson Bay route to the markets of the old world.

There had long been a suspicion in the minds of many Western people that the former opposition in Montreal and other Eastern centres to the construction of the Hudson Bay Railway was based, not on their professed respectism as to the feasibility of the route, but because of their belief that the route would put to rest an unequalled success, with all the upheaval which the opening of this short route from the heart of the prairies to the markets of the world would cause in existing transportation conditions, rates, and routing of traffic.

Examination of the plans of the railways, as thus far outlined, indicate a reversal of formerly held views that the people of Western Canada should be served by lines running east and west, with all the tremendous production of the prairies moving out either to the Atlantic or the Pacific seaboard, and all our imported products coming in through the same ports. Now, both of the great railway companies appear to be determined to connect up their east and west lines by short branches here and there and the construction of great north and south main lines, all stretching hundreds of miles north of existing settlement and heading towards tidewater in the north. A veritable railway revolution is in prospect.

This declaration of absolute confidence in the northern half of these prairie provinces, and in the Hudson Bay outlet, evidenced by the willingness of the biggest financial men in Canada interested in the C.P.R. to expend tens of millions of dollars in northern extensions, will attract the attention of the whole world and will constitute the greatest publicity this section of the Dom has now ever received.

Regardless of the decisions reached by Parliament as to division of the northern territory between the rival systems, and the respective zones to be allotted to each, the result will be to roll back the map of Canada hundreds of miles. The old reproach and weakness of Canada that it consisted of a narrow strip of more or less settled territory extending thousands of miles from the Atlantic to the Pacific along the Canada-United States boundary line, is to be removed. To the Dominion will be given great depth as well as great width, and what for centuries has been looked upon as barren wastes of extensive territory, but of no value, will become a storehouse of treasure, the development of which will add enormously to the population and wealth of the Dominion, providing new avenues of employment, and diversified employment at that, for the people of Canada.

## Utilizing Coal Resources

The new Fuel Research Laboratories of the Department of Mines at Ottawa, were designed and the equipment selected with the object of making out investigations which would be in the interest of the development of the coal resources of the Dominion.

**Fresh Supplies In Demand.**—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of leakage.

## Canadian Cheese

The production of factory cheese in Canada in 1926 amounted to 171,731,651 pounds. The value was \$91,753,380.

## Simple Precautions Against FLU Sore Throat

## The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

## Alberta's Peer's Estate

Estate Of Earl Of Egmont Estimated To Approximate One Million Dollars In Value

That the estate to which the Earl of Egmont, of Fiddle, Alta., has fallen heir, will approximate one million dollars is an estimate made at Calgary with his assistants.

The bulk of the estate comprises Avon Castle, the family seat at Ringwood, Hants, and 1,500 acres surrounding it.

Some \$40,000 has been spent lately in improving the land and the residence, declared the new earl.

In addition, he says, there are investments in stocks and shares and war bonds amounting to a large total.

## A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, pains in the intestinal tract, pains around the heart, sour regurgitation in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often met with in the case of a nervous man, yet the treatment is simple. The great contributing cause to this trouble is the blood. Good blood and plenty of it is required by the stomach to furnish energy, and the blood is this the stomach becomes sluggish and the system is out of gear. Gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this so well as the blood purifier Dr. Williams' Pink Pills. The admission of these pills is to make new, rich, red blood, which renews every organ and nerve in the body. It not only cures indigestion, dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills are shown by the case of Mrs. Lucy A. Cushman, a former lady of the Empire, N.S., but now living with her son at West Bethel, Me. Mrs. Cushman says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills as the best remedy for the greatest sufferer from indigestion. Always after eating I suffered from pains in my stomach and the most distressing symptoms that accompany indigestion. I was unable to eat, and the worst of it was that I was not getting better. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since. I use one or ten boxes I am completely restored to good health. Though I am now in my 76th year I am as strong as well and smart as I did at 35, and am enjoying life more than ever."

You can get these pills through any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Speakers At Dinner Of Canadian Society

U.S. and Canadian Senators Guests At Function In New York

The Canadian Society of New York helped to strengthen the North American entente cordiale by bringing together as their guests at their annual dinner two senators, one from the Canadian Upper Chamber, Hon. C. P. Beaubien, K.C., and the other from the United States Senate, Senator D. Fessenden, of Ohio. The speakers dealt with the aspirations of the two countries.

Senator Fessenden frankly discussed the two chief issues now agitating the Congress, the Kellogg treaty and the new cruiser program, and he readily supported both. The United States, he declared, should not put any obstacle in the way of the effort to banish war.

Senator Beaubien reviewed the development of Canada in recent years and painted a glowing picture of the Dominion's future.

"Canada, with a vision quickening and widening, has remained sober-minded, fairly traditional, and, I think I can add, hardworking and still law-abiding and God-fearing," he said.

"When you grow up you shall be a gentleman."

"I don't want to be a gentleman. I want to be like you, daddy."

—Jugend, Munich.

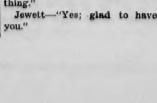

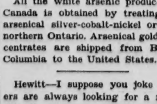

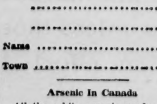

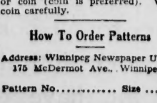

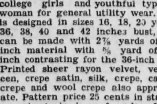

—W. N. U. 1769

## WAS PROMINENT RUSSIAN

Outstanding personality of the Russian armies during the world war and regarded by Russian royalists as claimant to the throne of that country, Grand Duke Nicholas, cousin of the late Czar, died of pneumonia at his home in Antibes, France.

## Shows Canada's Loyalty

London Paper Expresses Appreciation Of Reverse To Penny Postage

The London Sunday Times in an editorial headed "Canada leads the way," welcomed the increased British immigrant quota as emphasizing the practical loyalty of Canadians to their British stock, but fears that the proper advantage may not be taken of it in Great Britain. The newspaper quotes further encouragement both of propaganda and finance. The Sunday Times also expresses appreciation of the penny postage and finds in it "a signal proof of Canada's strong imperial sentiments."

After urging Hon. Winston Churchill, chancellor of the exchequer, to follow Canada's example the Sunday Times advocates a common empire stamp which, it states would have a real psychological value as a symbol of imperial unity.

## LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives; but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is soothing, gentle, and safe. It keeps the bowels regular, and makes the baby comfortable, and happy, in millions of homes today. Castoria is purely vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chan. H. Fletcher signature marks genuine Castoria.

## Kellogg Explains Treaty

The Paris pact for renunciation of war claims none of the signatories to it to go to war in defence of any country attacked in defiance of the treaty. Secretary of State, Frank B. Kellogg, informed the Senate committee on foreign relations during the recent hearings. He added that Canada would not be a party to the treaty unless that was understood.

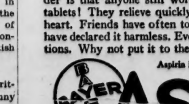

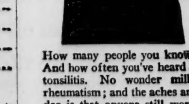

An acquaintance says the most undesirable place in the world to live is beyond one's income.

## Mina's Loinnet for the Grippe and Flu

The most popular marriage age in England is 23 for brides, and 24 for bridegrooms.

A power shovel being built at St. Louis, will dig fifteen cubic yards at one bite.

## For Colds—

## New Metallurgical Discovery

New Process Said To Make Carbide As Strong As Iron

What is called "the most important metallurgical process since the discovery of steel" is announced as an advertisement by the Einstein Electro-Chemical Process, Ltd., published in the London newspapers.

Materials which are non-conductors of electricity can now be electroplated, according to the claim made by this company, which asserts that wood, silk, porcelain paper and all metals can henceforth be coated with a surface of non-corrosive metal. As a result of the treatment even such flimsy materials as cardboard or plywood can be given the strength of iron and made relative to the corrosive action of steam, heat, chemical fumes and water. It is declared.

Fortification of the frail fabric of airplanes and airships to the strength of steel, and solution of the host-bombing problem by entirely metalizing craft of every description, are among the claims made for the new invention. Woodwork and textiles can be similarly metalized, it is asserted.

The advertisement asserts that the British Admiralty and Air Service have ordered articles on which the electro-chemical process has been successfully used.

## Needed Some Practice

Aunt: "Johnnie, why is it that you never remember to say 'Thank you'?" Johnnie (rejoicing victoriously a box of chocolates on his aunt's knee): "I expect it's 'cause I don't get enough things given to me to practice."

**Awful Athlete Attacks.**—Is there member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for scores of men and women, of every age, in every clime, and every condition of record, covering years and years of success in almost every part of this continent, and even beyond the seas.

A python 25 feet long, a giraffe 20 feet tall, an elephant weighing four tons, and an ostrich measuring 12 inches are among the "records" of the London zoo.

## Mina's Loinnet prevents Flu.

The palatial stables of the former German Kaiser have been converted into Berlin's first indoor tennis court.

## CHAPTER XII.—Continued.

Andy took the wounded bird from her hand. "Ow did it happen, Connie?" he asked tenderly.

"She was as open and unaffected as the wild birds of the forest. She was as capable of hating as she was of loving. Her eyes were laughing eyes, and the soul that looked out from them a merry soul, but she had a temper, and under sufficient provocation her blue eyes could take on a dangerous glow."

She now turned like an enraged lioness on the foreigner. "He killed you with a stick," she cried furiously. "You brute, you cowardly brute. . . ." In her rage her hands clenched and with breath coming in short gasps, she moved nearer to the object of her hatred. In her hysterical anger her voice rose almost to a scream.

"You cur, if I were a man I'd—I'd lick you!"

The cry came to Donald's ears, and he was off up the trail like a deer.

"Go ahead, I'll follow," responded Gillis.

Andy looked down on the mother goldenfinch as it lay in his hand. He felt the quick throbbing of his heart grow fainter and fainter. One wing was broken and its white breast was stained with blood. The bird's head drooped lower, and its film settled over its bright eyes. The beautiful wings stretched rigidly, and it gasped convulsively, sending a tiny stain of crimson from its mouth that fell warm on his palm.

Andy's face became convulsed. His hand shook violently as he picked the dead bird tenderly on the ground. "Connie dear," he said, in a voice that trembled, "I ain't a whole man, but here's where you see 'arf a man gets into battle to give all he's got."

He removed his coat and threw it over him. Through a rage-mist Andy saw the grinning foreigner throw up his arms in an absurdly unscientific posture of defence. Like a mad cat, Andy launched himself straight at his bulky opponent. The grin was wiped from the big man's face by Andy's compact fist, as it smacked resoundingly on the side of his thick nose with a snap like that of a whip, and with a skilled force that brought blood.

Andy's years of training boxers now stood him in good stead. He knew that a small man would stand little chance in long range fighting, and he kept well inside the larger man's wild swings. With his blond head tucked against his adver-

sary's body, his fists worked like pistons; he kept sending short jolts to the body that brought heavy groans every time they landed.

Connie was delirious with excitement. "Hit him, Andy! Hit him! Good! Good!"

And then she groaned as the big man's hand found Andy's throat and flung him up immediately, but stepped into a swinging fist that caught him over the eye and sent him sprawling. He daunted, he came to his feet, waited warily for an opening, and again sprang under the big man's guard.

Andy's fist shot up in a ripping uppercut that was judged to be a nice try, catching his opponent on the point of his chin with force enough to send him rocking on his heels, and before he could recover himself the same fist, accompanied by his mate, beat a tattoo on his solar plexus.

In desperation the bewildered man wound his arms about the little Aussie and lifted him high in the air. Like a game bulldog, Andy hung on. Though his face was off the ground he clung to the big man's body like a leech.

"Again the big hands felt for Andy's throat, and he was flung six feet to strike with a thump that shook every bone in his body. Connie cried out in fear as he narrowly avoided a brutal blow aimed at his head."

Andy's sense of British fair play had received a rude shock. "As Me-mer," he said, "he wanted to see me to his feet, when in Bohunka do as the Bohunka do."

"Take that, Spaghetti!" he shouted, as he kicked the foreigner viciously on the shin. While the latter leaned over in pain, Andy shot a well-directed uppercut to his face.

The big man sat down, a dazed look in his eyes.

Breathless, Donald arrived on the scene with a gasp. "The brute!" he breathed heavily. Andy's adversary came to his feet, picked up his hat, and with arms wound about his head, he retreated. Andy was after him like a hornet, sending stinging blows through his vulnerability.

Donald and Gillis stood with mouth agape to see Andy administering a sound thrashing to a man twice his size. Right to the edge of the woods he relentlessly pursued his fleeing enemy.

Andy's head was held at its usual cocky angle, and he assumed a swagger as he retraced his steps, but his short legs wobbled and he sank dizzily to a stump.

"I brought 'em blinkin' meat-ouse down, Connie," he gasped.

"Oh, Andy, you're a darling!" she said, throwing her arms impulsively around the little man's neck, and touching her lips to his cheek.

Andy's floral face took on a deeper tinge, and he blushed hard to hear certain signs of emotion. He afterwards admitted to Donald that he was not "sweet sixteen," and that it was the first time that he had ever been kissed in his "moonin'" life.

Connie wet her handkerchief in the cold water of the creek and bathed his face with tender care.

She showed Donald and Gillis the rest with the motherless birds, pointing out the premature death by this act of wanton cruelty, and pointed to the tiny bird on the ground, for whose misery end Andy had taken such elaborate and summary vengeance. Connie choked as the lovely male bird flew to a stalk of goldenrod near its dead mate and nuzzled it with its beak.

"Dear, dear, dear," sang the goldenfinch in a plaintive, questioning tone.

Andy presented a pitiful figure in his eye closed, his lips swollen like a face bruised, but the indomitable spirit of his man shone from his one bright orb.

"You darned little buzz-saw!" said Connie.

Donald slapped his little friend on the back, his eyes shining with admiration.

## COUGHS

are Nature's signals warning that resistance is broken and the body undermined.

## Scott's Emulsion

is a blessing to all who need strength. It helps keep the body vigorous and healthy.

Try it!

Scott & Bower, Toronto, Ont. 25-9

## CHAPTER XIII.

Remick announced that Robert Remick's daughter and a party of girl friends were to visit Summit. Like the following week, and carpenters were set to work erecting cottages for the accommodation.

A few days before her arrival Donald was both surprised and pleased to receive a cordial letter from her in which she said that she was looking forward with pleasure to the coming holiday, and that she would deeply appreciate anything he might do for the entertainment of her friends.

As always, her father spared no expense in providing for the comfort and pleasure of his daughter. That week a car containing a motorboat, canoe and six saddle-horn was run in on a side-track at the mill.

Connie learned of the coming event through Donald as she was watching with keen interest the unloading of the spirited animals.

"You will enjoy yourself next week, Connie," he said joyfully. "Miss Remick is coming with friends. We'll have rides, picnics and dancing."

A few minutes later Connie joined her father and sat at the table in the kitchen door enjoying a breath of fresh air.

"Is Miss Remick rich, Andy?" she asked, with a twinkle in her eye.

"Is she beautiful?"

"Yes, 'ard so."

Andy's heart was thumping. He searched the pockets of her overalls and produced several neatly folded papers. She extracted one, pressed it to her nose, and sniffed.

"Does Miss Remick dress like that?"

It was a photograph of an actress dressed for the street, taken from one of the magazines that Donald had given her.

"Oh, she must be wonderful, then!" said Connie earnestly. "I moved closer to Andy, unbuttoned several pages, and spread it on her knee."

Andy bent his blond head close to the page, and a start of surprise crossed his features, and his eyes bobbed up and down. It was a full-page advertisement of ladies lingerie. The highly colored illustration of a lady, partially dressed, achieved its object of arresting the eye, while the remainder of the space was occupied by articles of apparel similar to those adorning the lady's graceful form.

Andy coughed. "Er—yes, Connie," he said, raising his eyebrows incredulously. "All at one time?"

"Sure—sure," mumbled Andy.

Connie stared. "Why, there must be nearly a dozen pieces. How can she fasten them?" she questioned as she pointed with a slender brown finger to the tiny buttons.

Andy took a quick glance. "Buttons," he replied.

"Buttons?" repeated Andy, gripping the level of his pipe and sending out clouds of smoke.

"And this?"

"Strike me blind, what a 'ell of an 'ell," thought Andy.

"Buttons," he responded desperately without looking at the paper. (To Be Continued.)

Canada's Historic Sites

The Historic Sites and Monument Board of Canada is composed of historical authorities, and one of its duties is to recommend to the Department of the Interior, historic sites worthy of being marked, restored, or preserved. The board meets annually to consider the various sites brought before it, and forwards its opinion to the Department of the Interior which makes the decision and carries out the work through the National Parks of Canada.

"Your girl is a blonde, eh? Suicide or natural?"

"What do you mean by suicide, blonde?"

"Who dies by her own hand."

"Suitor—And, darling, let's be married soon."

"Film Actress—Sure, I'd make it once. You'll never use crude methods when you get the efficiency of this. Go get a small bottle to try it."

Be sure to get the genuine Phillips' Milk of Magnesia, as prescribed by physicians for 50 years in correcting acidity. Each bottle contains full directions—any druggist.

W. N. U. 1769

## Quality Of Canadian

## Goods Has Improved

Research And Skilled Labor Have Been Big Factors

The quality of Canadian products is steadily improving, with greater knowledge of research, scientific methods, processes and application of skilled labor and the needs of buyers. In the face of mass production competition, Canadian producers are seeking to find their place by giving special service, better quality or distinctive features to their products. That they are succeeding is proved by the fact that Canadian manufactures are exported to over a hundred countries, while supplying the greatest part of domestic needs. A still greater share of the home market would result in more production, more employment and more exporting, and it is therefore important that home industry should be encouraged by stabilization and other necessary measures as much as possible.

## Recipes For This Week

(By Betty Barclay)

## RICE AND SALMON SALAD

Take equal parts of salmon and cold boiled rice, stir with a fork until the fish and rice are thoroughly mixed. Pour into a salad dish and cover the whole with mayonnaise or boiled dressing.

Canned tuna fish, left-over chicken, meats, ham, or vegetables can be used in the same manner. We'll use equal quantity of rice. The addition of celery and hard-boiled eggs make a more elaborate dish.

## SANDWICH FILLING

One pound of mixed nuts (be careful to keep small particles of shell from clinging to meats). One cup seedless raisins. Grind together in a food grinder, add a little salt and the juice of one small orange. Work together very thoroughly, place in a glass container and keep in a cool place. Can be used between thin, well buttered slices of whole wheat, white or bran bread. Ideal for school lunches, workman's lunches or picnics.

## Already Advised

An "accident" case, in which the patient was suffering from a wound to the head, was taken to hospital. After taking the usual particulars as to age and next of kin, the officer said: "Now, don't worry. I shall take immediate steps to ensure your wife being advised of your detention here, and so save her from anxiety." To which the patient resignedly replied: "She did it, Miss!"

Sixteen hundred different noises disturb Milwaukee, according to police survey.

Hewitt: "Can you get your wife to try the budget system?"

Jewett: "No; she won't budge."

"Sure—sure," mumbled Andy.

Connie stared. "Why, there must be nearly a dozen pieces. How can she fasten them?" she questioned as she pointed with a slender brown finger to the tiny buttons.

Andy took a quick glance. "Buttons," he replied.

"Buttons?" repeated Andy, gripping the level of his pipe and sending out clouds of smoke.

"And this?"

"Strike me blind, what a 'ell of an 'ell," thought Andy.

"Buttons," he responded desperately without looking at the paper. (To Be Continued.)

## Congress of Nurses

Delegates Coming To Montreal Convention From Many Lands

For the international Congress of Nurses, to be held in Montreal, in July, acceptances have been received from the following countries to date: Great Britain, United States, Australia, New Zealand, Hawaii, India, South Africa, Irish Free State, France, Belgium, Germany, Switzerland, Spain, Italy, Bulgaria, Austria, Poland, Greece, Turkey, Yugoslavia, Czechoslovakia, Latvia, Estonia, Sweden, Norway, Holland, Denmark, Iceland, Cuba, Java, Philippine Islands, Brazil, Ecuador, Argentina, Chile, China, Japan, Korea, and Syria.

## Trappers Use Airplanes

Bring Fur From North Country To Winnipeg By Modern Methods

For the first time in history, an airplane has been carrying furs from the wilds of Northern Manitoba to the Winnipeg market. Hollick Kenyon, aviator, left Cranberry Portage for Brocket settlement the other day, taking Del Symonds, veteran trapper, whose aim was to beat all other trappers who take a month to travel by dog team.

"Suits"—"Alfred, I know I have my suits."

He—"Yes, dear."

She (tridgily)—"Then perhaps you'll tell me what they are."

## Easily Done

George (nervously): "I'd like best in all the world, Rose, to marry you, but I don't know how to propose."

Rose (promptly and practically): "That's all right, George, you've finished with me. Now go to father."

Actor—"I say, you know I'm getting awfully popular. I see some tobacco people have named a new cigar after me."

Manager—"Oh! Well, I hope it'll draw better than you do!"

WINDOLITE The Improved  
Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective agent is the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding those vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt need. Experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, and has the eye-opening capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light strong without glare, sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, heat and easy to cut and fit. It is now being successfully used for nurseries, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of shears and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness weighs about 135 to 140 ozs. The improved WINDOLITE requires no fastenings. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, Excl. Tax, Toronto.

Use WINDOLITE and let

When Pain  
Comes

Why many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated and food sour. The corrective is an alkali, which neutralizes acid instantly, the best known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One successful taste barrier.

tasteful alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when you get the efficiency of this. Go get a small bottle to try it. Be sure to get the genuine Phillips' Milk of Magnesia, as prescribed by physicians for 50 years in correcting acidity. Each bottle contains full directions—any druggist.

## UNITED FARMERS ASK FOR BETTER FREIGHT RATES

Vancouver.—Backed by the United Farmers of the three prairie provinces, the United Farmers of B.C. will carry British Columbia's claim for better freight rates to the governor-in-council at Ottawa.

The appeal has been prepared and forwarded to Ottawa by G. G. McGee, K.C. The appeal involves three requests: That export grain rates covering the movement of all traffic into, from or through British Columbia.

Mr. McGee will argue the case at Ottawa when argument is heard. Mr. McGee will also continue his appeal to the board of railway commissioners for leave to appeal to the Supreme Court of Canada in the matter of domestic grain rates.

Mr. McGee announced his intention of appealing after the board of railway commissioners. Later, however, when the board gave permission to Leon J. Ladner, K.C., who represented the attorney-general of British Columbia, permission to file formal application for a writ of certiorari in the Supreme Court of time in which the appeal would be made, Mr. McGee said that if the attorney-general was going ahead with the appeal and he was also going to ask for leave to appeal on behalf of his clients to the supreme court.

R. E. McMillen, acting for the Canadian Pacific Railways, said the appeal was one that should be covered by the full board of railway commissioners. R. W. Hamilton, counsel for the Canadian National Railways, supported Mr. McMillen's argument. The chief commissioner, H. A. McGowan, said that in view of the circumstances connected with the application, and the fact that no suit had been given the railways, the application might very well be heard in Ottawa.

**Favor Old Age Pensions**  
Lethbridge, Alta.—Old age pensions will be urged upon the Alberta government by the Alberta Federation of labor as a result of a resolution passed by the delegates at a recent session. Alberta is the only western province which has no such legislation in force and the labor men are determined that enacting laws shall be passed at the coming provincial session.

**Gigantic Wave Strikes River**  
New York.—Leonardo Fioroni, cook, was killed and several others injured by the crew were injured by a gigantic wave that surged over the bow of the White Star liner *Mauretania* on the crossing commencing when the ship docked here. The wave twisted steel bulkheads, wet the mail, ruined part of the cargo and necessitated removal of the 250 third class passengers to other quarters.

**Gift For McGill University**  
Montreal.—A gift of \$20,000 has just been received by the McGill faculty of applied science from Walter W. Colpitts, of New York, to establish a graduate scholarship in civil engineering at the University in honor of Dr. John Denzell Porter, emeritus professor of mining engineering. Mr. Colpitts graduated from McGill in 1899 from McGill faculty of applied science.

**Again Heads Alberta Farmers**  
Edmonton.—Opposition to re-election of H. W. Wood as president of the U.F.A., was drowned in a vote which swept him into the first executive office for the fourteenth time. To a motion that he be "retired" a honorary president was added an amendment that he be made president. The amendment was passed by overwhelming vote.

**Increase In Dairy Products**  
Fredericton, N.B.—The value of cheese, dairy and creamery butter in Canada during 1928 will show an increase of more than \$11,500,000 over the preceding year, J. P. Hingetien, chief of the dairy market division of the federal department of agriculture, told delegates to the New Brunswick Dairyman's convention in session here.

W. M. U. 1709

## Discussed Problems Of Egg Marketing

Canadian Producers' Association To Take Matter Up With Government

Toronto.—Egg marketing problems were discussed at the annual convention of the Canadian Producers' Association here. In view of the unprofitable situation which has confronted the dealers on account of surplus supply it was decided that a committee be named to take the matter up with the Dominion government. W. S. Cameron, Toronto, president of the association, suggested that the committee be representative of dealers, exporters and producers.

Alfred McCann, of Cheltenham, Ont., urged that advertising calculated to insure the consumption of eggs should be undertaken by the government.

Mr. Cameron in his presidential address, stated that the season had been a profitable one for the egg producers but on the average it had been unprofitable for the dealers because of per capita consumption had risen from 16.00 dozen in 1924 to 20.07 in 1927, and he expected the 1928 figures to show more than 20 dozen per capita.

## Reparations Conference

Reported Meeting Will Be Held In Paris In Feb.

Paris.—It has been intimated that the reparations conference will meet in Paris about February 9, and in addition to Owen D. Young, former general of reparations, J. Pierpont Morgan is expected to take an important part in the discussion.

As far as could be learned from a canvass of the interested officials no one seems to have any definite plan to submit. All the experts have ideas and some have a few constructive suggestions, but none have exact figures.

The British experts, it is understood, will assume a waiting attitude, and the initial discussion is expected to be between France and Germany. The Italians will content themselves with trying to remind themselves that they have already received and Japan will try to what turn up.

## Great Increase Shown In Canadian Trade

Advance of Nearly \$25,000,000 During Last Nine Months

Ottawa.—Canada's total trade advanced nearly \$25,000,000 during the last nine months of 1928. The total of \$2,007,800,158 compares with \$1,982,854,379 for the corresponding period in 1927.

Figures were made available at the department of national revenue. Domestic exports were valued at \$1,071,647,164, an increase of \$121,542,779 over the comparative figures of \$950,104,387 in the previous year. Wheat exports alone moved upward more than \$81,000,000, while newsprint and automobiles were substantially heavier.

**Air Pilot Killed**  
Toledo, Ohio.—Ted Hay, 30, pilot of Trans-Canada Air Transport Company here, was killed when his plane crashed as he was attempting to land. Witnesses said one of the wings of Hay's ship collapsed as the aviator soared 75 feet above the field for his landing. The low altitude apparently prevented him from righting the plane.

**Will Participate In Scheme**  
Regina.—Manitoba will again participate in the British boy immigration scheme it has been announced by Hon. Albert Prefontaine, Minister of Agriculture for Manitoba, who stated that a requisition would be forwarded to the British authorities to bring 50 youths to that province this spring.

**Fuel Tanks of Amundsen Plane**  
Paris, France.—The French builders of the *Latham* plane in which Roald Amundsen and his companions were lost while hunting the wrecked dirigible *Italia*, in the Arctic, announced that fuel tanks found floating off Norway exactly conformed to those used on the Amundsen plane. Five others were lost with the famous explorer.

**Received New Appointment**  
Ottawa.—Canada's recently appointed chief of staff of the Department of National Defence, Brig. Gen. A. G. L. McNaughton, has been promoted to the rank of Major-General. The appointment is post dated to take effect from January 3, 1929.

## Will Sail For England

New Earl of Egmout to Leave About 2nd of February

Calgary.—The new Earl of Egmout, Frederick George Trevelyan Percival, who for the past thirty years has been ranching in the Calgary district and who recently fell heir to a big estate in Great Britain, will leave about the end of February for England.

He will be accompanied by his fourteen-year-old son and heir, the Hon. Frederick George Trevelyan Percival, and Mr. and Mrs. Harry Trimmer, of Pridd's, who have been guests of the new earl for many years.

## Farm Loan Board

Ottawa.—While no announcement has yet been made as to the personnel of the farm loan board which will act with Dr. J. D. McLean, former Premier of British Columbia, and recently appointed to the chairmanship of that body, the understanding in the capital is that Hon. E. C. Drury, former premier of Ontario and Beaudry Leman, president of the Banque Canadienne Nationale, will be named.

## Railroad Wreck Was Caused by Drunkenness

Roumanian Train Crew Responsible For Death of Fourteen Persons

Turnu-Severin, Roumania.—Railroad inspectors said that drunkenness on the part of the engineer and crew of the Bucharest-Temesvare express cost the lives of 14 persons. In addition to the fatalities about two score passengers were injured at Prunioru, near here, when the express crashed into a local train which had been derailed.

The express was plunging along at 55 miles an hour in the dead of night when the crash occurred. The engineer of the express, which was heavily laden, was apparently blind to all signals. In their excitement the passengers of the local train, which was apparently forgot about the crashing Bucharest express, which plunged into the passenger coaches of the local train like a catapult.

**Salary Revision For Mail Clerks**  
Ottawa.—New classification and salary revision for mail clerks throughout the Dominion is considered probable by J. P. O'Farrell, of Quebec, president of the Dominion Railway Mail Clerks Association. Mr. O'Farrell expressed himself thus after appearing before the Civil Service Commission with proposals along these lines.

**Children Victims of Ranch Fire**  
Winnipeg.—Two young children, one six months old and the other two years, were burned to death when fire destroyed a ranch home near Arden, Manitoba, about here.

**CANDIDATE FOR THRONE**

Count Folke Bernadotte, of Sweden, shown above, with his bride, formerly Miss Elizabeth Marjorie, of Pleasantville, N.Y., is one of the two foremost candidates for the throne of the United Baltic Kingdom, which is proposed to form by merging Estonia, Latvia and Lithuania.

## RETIREES FORM BUSINESS

Failed to Receive Acquittal

London.—Miss Vanessa Stephenson failed to secure acquittal at the central criminal court of the first man she had defended on a charge of murder, John Holroyd Ward, aged 24. The jury without much delay returned a verdict the prisoner was guilty of the murder of his grandfather, a bookmaker, who was found with his skull fractured in Pimlico. But she received the warmest congratulations upon her case for the defence from Mr. Justice Humphries.

Miss Stephenson eschewed any attempt at rhetoric. "I am fighting for this young man's life and it would fail me it is because I appreciate the responsibility that rests on my shoulders."

Miss Stephenson, however, used carefully chosen sentences when she passed to a review of the evidence, urging the manner in which the accused's grandfather met his death was consistent with the younger man defending himself from attack by the older.

## Western Pioneer Dead

Major Augustus Miles Came to Winnipeg in 1870

Winnipeg.—A pioneer of early western Canadian military expeditions, Major Augustus Miles, 76, is dead at his home here. He came to Winnipeg in 1870 as a member of the first Lord Dufferin expedition. Later he participated in the Red River campaign as a captain in the Rifles, which made a far western march in search of the Inuit and the annual meeting.

For a time he was Dominion government land agent and then, in 1883, was appointed deputy commissioner of the Manitoba land office, a position which he held at the time of his death.

**APPROVE NEW  
RURAL SCHOOL  
PLAN IN ALBERTA**

Edmonton.—Approval of the Baker rural school plan, sponsored by the Alberta government, was voiced by the convention of the United Farmers of Alberta here. A vote taken on the questions, favored approval of the Baker system by 205 to 10. According to the resolution the convention favored raising funds by grouping rural school areas in districts under a flat mill rate on assessed valuation.

Hon. Perren E. Baker, minister of education in the Alberta government, was the most prominent figure in the discussion on the system which bears his name. In the midst of a debate he was summoned into the argument at the request of the farm delegates. After outlining his system, the minister of education answered queries on the matter until the program was halted. According to the projected system, the province would be divided into 20 divisions of 15 school districts each. Chairmen of the district boards to form a general board, which, with the minister of education, would supervise rural educational matters in Alberta. Selection, placing and payment of teachers under the Baker plan would be handled by the general board.

In the discussion on the Baker idea "government by proxy" was quoted as a name for the proposed mode of rural educational supervision. It was claimed that, regarding single taxation areas, "none would stand for a blanket tax assessed by a bureau of the government."

In answering his critics, Mr. Baker denied the "bureaucracy" and "government by proxy" allegation, and stated that matters would be governed by appointed representatives of the ratepayers. He estimated that the increase in taxation necessary to pay for the better supervision the new system would involve, would be covered by a three-quarter mill increase over the entire province and he contended that the new plan would place experts in charge of the allocation and selection of teachers.

**Ask Customs Rebate**  
Ottawa.—The government is being asked by the British Columbia Sugar Refining Company to include in the forthcoming customs tariff the amount of \$50,524.88 with interest, being the balance of \$50,524.88 claimed to have been overpaid by the company in custom duties.

**Ask Zepplin's Next Trip**  
Friedrichshafen.—The next important flight of the trans-Atlantic dirigible Graf Zeppelin will be at the end of February, when the big airship will fly to the pyramids of Egypt, and on to Palestine, it has been announced. The dirigible probably will moor en route.

**Hundreds Killed By Earthquake**  
Peking, China.—Hundreds of Chinese were killed in an earthquake in the Northwest part of Shansi province, disorganized here said. The earthquake occurred near the Mongolian border in a section suffering from a famine.

**Far Revolution**  
New Orleans, La.—Isaac Lehman, representative of a New York cotton goods manufacturer, arrived here yesterday and he contended that the citizens and other foreigners were fleeing Spanish Honduras in expectation of a revolution.

## Woman Leads Defence In Murder Trial

Frailed For Plea in Old Bailey, But Failed to Receive Acquittal

LONDON.—Miss Vanessa Stephenson failed to secure acquittal at the central criminal court of the first man she had defended on a charge of murder, John Holroyd Ward, aged 24. The jury without much delay returned a verdict the prisoner was guilty of the murder of his grandfather, a bookmaker, who was found with his skull fractured in Pimlico. But she received the warmest congratulations upon her case for the defence from Mr. Justice Humphries.

Miss Stephenson eschewed any attempt at rhetoric. "I am fighting for this young man's life and it would fail me it is because I appreciate the responsibility that rests on my shoulders."

## TALK REDUCTIONS ARE URGED BY MANUFACTURERS

Hamilton, Ont.—The report of the special committee on taxation was presented at a meeting of the Canadian Manufacturers' Association. It recommended consideration by the government of a method to avoid "double" and in many cases triple taxation.

Reductions of the personal income tax, reduction and final abolition of the sales tax, and a reduction in the excise taxes on finished goods were other recommendations.

An important closed meeting of the unit of the association was held at which over 200 members from all over the Dominion were present. A luncheon was also held, when Sir Joseph Flavelle, Toronto, spoke on "Industrial Research." He said:

"Premier Ferguson, some time ago promised \$1,000,000 towards industrial research. It is the association's aim to make that \$2,000,000, with the promise that the government would advance a like amount. It is for us to accept the challenge," said F. Monypenny, chairman of the Ontario division of the C.M.A.

Sir Joseph Flavelle said that Canadian manufacturers were behind their British and American competitors in applying science to their business.

## Capital of Barley's Bank

Amount Will Be \$500,000 With Same Sum As Reserve

LONDON.—Barley's Bank of Canada, when incorporated, will have capital of \$500,000 and a reserve of a similar amount. F. C. Goodenough, chairman of Barley's Bank, Limited, said at the annual meeting.

Sir Robert Laird Borden, former premier of Canada, had accepted the chairmanship of the new bank and the directors included Premier L. A. Taschereau of Quebec, he added. Application for a charter for the bank will be made at the coming session of the Canadian parliament.

## Free Trip Offered Students

Paris.—A free trip from Montreal to Paris with expenses for a 15-day sojourn at his hotel to the student graduating with highest honors at Canadian Universities is to be offered by J. G. Metral, administrator of a Paris Hotel, if arrangements can be made with Canadian Universities for the free trip.

**To Aid Paraguy Farmers**  
Asunción, Paraguay.—The Paraguay government decided to set aside 25,000,000 pesos credits to farmers who are unable to harvest their grain because of the absence of farm hands in the army mobilized recently in the dispute with Bolivia. The government also is trying to demolish the farmers first and as quickly as possible.

**Ask Customs Rebate**  
Ottawa.—The government is being asked by the British Columbia Sugar Refining Company to include in the forthcoming customs tariff the amount of \$50,524.88 with interest, being the balance of \$50,524.88 claimed to have been overpaid by the company in custom duties.

**Ask Zepplin's Next Trip**

Thursday, Jan. 24, 1929.

No. 30

Published in the interests of the People of Champion and Farmers of this vicinity.  
GEO. L. DEPUÉ, Editor.

## EDITORIAL

There is no hope for the man who knocks his home town. If he knocks his home town, he would knock away town that he might move to, and any man who knocks the town he lives in is making a failure of life.

**But Not Obedy**  
The difference between a written and an unwritten law seems to be that the latter is often enforced.

To the school boy nothing succeeds like tears.

Gay Dow says, "The meanest kind of neighbor is the one who keeps his windows shut so you have to buy a radio set of your own."

Get all the cream with a Mc-Dug, ball bearing

"Good Equipment Makes a Good Farmer Better."

## LOCAL AND GENERAL

Messrs. T. M. and O. Sletto and Fred Gottschalk left for Spokane on Monday night's train, where their father is seriously ill.

Mrs. Frierson was a bridge hostess last week.

Vulcan Flour at \$1.95 for 40s is going fast, at Campbell's.

Born—On Jan. 11th, to Mr. and Mrs. Geo. A. Neilson, a daughter.

J. Neilson and I. Hugh of Nemismen visited at the home of G. A. Neilson last week.

The C. W. L. will hold a bake sale in Hoskins' store on Saturday, February 9th, at 3 o'clock.

The O. E. S. Valentine dance will be held on Feb. 13th. Keep the date open. Details next week.

Owing to illness K. R. McLean, sight specialist, was forced to alter the date of his visit to Champion to Friday, Feb. 1st.

K. R. McLean R.O. of Anderson & McLean, Sight Specialist, 208 8th Ave. West, Calgary will make his monthly visit to Champion Friday, February 1st at the Drug Store.

The Central Service Station is the latest addition to the business places in town, Messrs. Granlin and Running being the proprietors. It is intended to be what it is named, a service station.

A trip to the South Seas is expensive, but don't worry. The theatre next week is bringing you a swell camera record of a real story, and all the scenery, called "White Shadows."

A Valentine tea under the auspices of the Girls' Perseverance group of the C. G. I. T. will be held in the church at 3 o'clock in the afternoon on Feb. 9th. Candy and Valentines will be sold. Admission 25c.

W. Bradley, a resident in this vicinity for some time died in the General Hospital on Tuesday morning. Deceased had been ill for the past two months with what developed to be cancer of the stomach and which ultimately proved fatal. He is survived by his mother in Denver, Col., and three daughters and one son. He was widely known in this district, having been in the employ of W. Bozarth in recent years. The funeral will take place in Calgary.

cream separator.

Judge: "Do you wish to marry again if you receive a divorce?"

Liza: "Ah should say not. Ah would like to be withdrawn from circulation."

Oscar, Tom and Martin Sletto left for Spokane on Monday night, their father being dangerously ill being the occasion.

We are still inclined to argue, that this is one of the finest winters we've ever seen, and we've seen lots of 'em. The flu seems to have made its appearance in earnest in the district.

She was but a janitor's daughter, but she swept him off his feet.

One of the finest things that we have found in business is that business friends often become personal friends.

A mansion is a house where they expect you to use the guest towels.

P. Holm says that last Saturday night was the first time that he really felt that he should have protection.

Time to start to think about cleaning and treating your seed. We are hauling copper, cast-iron and treasurers again this year. Last years users are all boosters and recommend it to their friends and neighbors.

Contractor Visser is keeping things moving around the hall, although the weather isn't the best for his job.

Any reasonable offer for the above "Old Cocks" will be accepted.

W. C. Hoskins. B. M. Roberts

Authority has been given by the provincial government, under The Public Inquiries Act, to the commission appointed by the government of Saskatchewan, on the grading and marketing of grain, to hold sittings in Alberta. This action has been taken at the request of the Alberta Government. Desiring to co-operate with the sister provinces and to facilitate the work of its commission as much as possible, the necessary powers have not been conferred upon the commission, which will therefore have the right to hold sittings in Alberta on the same basis as in its own province. It is not known how many sittings will be held, but presumably the larger center will be included in the itinerary and possibly some of the leading rural shipping points.

Alberta holds leading place among the western provinces in the land sales made by the Canadian Pacific Railways during the past year, nearly 60 per cent. of the prairie total of 650,468 acres being in this province. It is stated by officials of the company. A grain of 50 per cent. is shown in the C.P.R. farm land sales in the three prairie provinces compared with the previous year when 427,921 acres were disposed of. The volume in 1928 was the highest in any year since 1921, while a large percentage of the sales represented each transaction. The majority of the Alberta sales occurred in the Lloydminster district and in the territory opened up by the new Cutknife-Whitford line which has recently been completed into Edmonton.

## The United Church of Canada

What is the church? Not just the United Church or any one church but the Church entire, universal! "The union of those who love, in the service of those who suffer"—is an offered definition which may prove a challenge and an inspiration.

## UNITED CHURCH SERVICES

11 a.m. Sunday School, with adult class and classes for all ages younger. 2 p.m. 1st and 3rd Sundays of each month, Blusson, 2nd Sunday of the month, Sanderson. 4th Sunday of the month, Pignard. 7:30 Evening Worship.

## Lutheran Church Services

The Lutheran church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Feb. 10th, at 10:30 a.m. Sunday School after service.

You are heartily invited to attend and to bring your friends.  
REV. F. A. DUENING, Pastor.
